Special Education Workshops - Region 4 Service Center

The thiomersal controversy describes claims that vaccines containing the mercury-based preservative thiomersal contribute to the development of autism and other brain development disorders. Thimerosal is no longer used in children's vaccines in the United States, except some types of flu shots. While exposure to mercury may result in damage to ...

Thiomersal controversy - Wikipedia

And probably Chronic Fatigue Syndrome ME/CFS as well! I always tell my students that when a scientific concept is finally understood the answer should be simple, elegant, and yes, even beautiful in its own way. That moment has NOW been reached in autism and the results published for the entire world to see. I know ! Continue reading The ...

The Study Which Will END Autism! - BolenReport
