United States housing prices experienced a major market correction after the housing bubble that peaked in early 2006. Prices of real estate then adjusted downwards in late 2006, causing a loss of market liquidity and subprime defaults. A real estate bubble is a type of economic bubble that occurs periodically in local, regional, national or ...

Since the mid-2000s, organizational change management and transformation have become permanent features of the business landscape. Vast new markets and labor pools have opened up, innovative technologies have put once-powerful business models on the chopping block, and capital flows and investor demand have become less predictable.
